

3rd SERVIER ADVANCED CARDIOVASCULAR SCHOOL

International program for young cardiologists

2020 - 2021

RATIONALE:

- Selection of 12 young cardiologists from Eastern - Central Europe, fluent in English, aged 30-40 years, considered by their professors as having a high scientific potential.
- Scientific development, over 2 years, by attending main European Cardiology congresses.
- Academic Scientific development, through medical teaching by prof. Panos Vardas (past president of the ESC) during congresses and in a specific meeting
- Possibility of direct personal contacts with some Key Leaders of the ESC
- To create a network of young Cardiologists, by preparing together international publications

ACTIVITIES:

- Fellows will attend **Heart Failure, EuroPCR, and ESC congresses** over a 2-year period (4 congresses in total), during which they will daily **work with their mentor, prof. Panos Vardas,**
- **An Academic Educational Meeting,** on “How to maximize your medical and scientific knowledge”, will be organized with key ESC leaders
- Fellows (in small groups) will prepare **review articles, to be submitted to international Journals**
- Prof. Panos Vardas will in **regular contact** with the fellows over the 2 years.
